## **OFSAA Football 2019 Team and Game Photos**

One of the activities prior to your championship game warm up will be to have a team photo taken on the Stadium Field. Please have your players in uniform ready to have a team photo taken in the end zone prior to beginning your warm up activities. This will minimize the time to complete the team photo and allow you to quickly carry on with your pre game warm up activities.

You and your players will also have the ability to order copies of the team photos in a team bulk order (see order form) or individually from the Spectro Photography website. [www.spectrophotography.ca](http://www.spectrophotography.ca)

The nine games played in the 2019 OFSAA Football Championships will be photographed by an on site photographer from Spectro Photography. Game day photos will be for sale in both electronic and print format after the event.

Following the OFSAA Football Championships event photos from all nine games can be reviewed and purchased from the Spectro Photography web site at [www.spectrophotography.ca](http://www.spectrophotography.ca) Photos will be available for review and purchase within 24 hours of each game. An option to buy a complete package of all photos from the game is also available. See attachment.
